Here the dashboard screen :

the greyed-out icons on the side are the modules that will be developed later; you need to make them appear, but they cannot be clicked. The functional module today must be the one from google

the search bar lets you search directly by keyword

You need to identify the IP address / or get the user to accept geolocation in order to display the weather at the place of connection.

The bell icon gives access to notifications. You can view it on the front end sent to understand which data should be displayed.

same for the messaging icon.

The settings icon takes you to the user's settings page, where you can modify data, etc.

This statistical info displays the reputation score: i.e., based on the number of searches performed by each user, displaying an average between sites output in positive/negative and neutral scores.

A cron or batch job must be run so that on the 1st of every month, the tool automatically re-runs an analysis based on the same keywords used, and returns the first 50 results from Google.

Statistics vary and evolve every month.

The tile on the left shows the evolution of outgoing links with a positive score, while the tile on the right shows those with a negative score over a 30-day period.

the bottom tile I need customer feedback

this screen is just another view of the output stats.

Percentage of positive links out of the total number of requests made, same for negative and neutral links.

I need some information from the customer about this screen :

As explained, depending on the information that emerges, the customer can request that the Reeach company remove the links on which he is present.

This screen lists the intervention requests with their approval status: whether the request has been accepted/refused or is being processed.

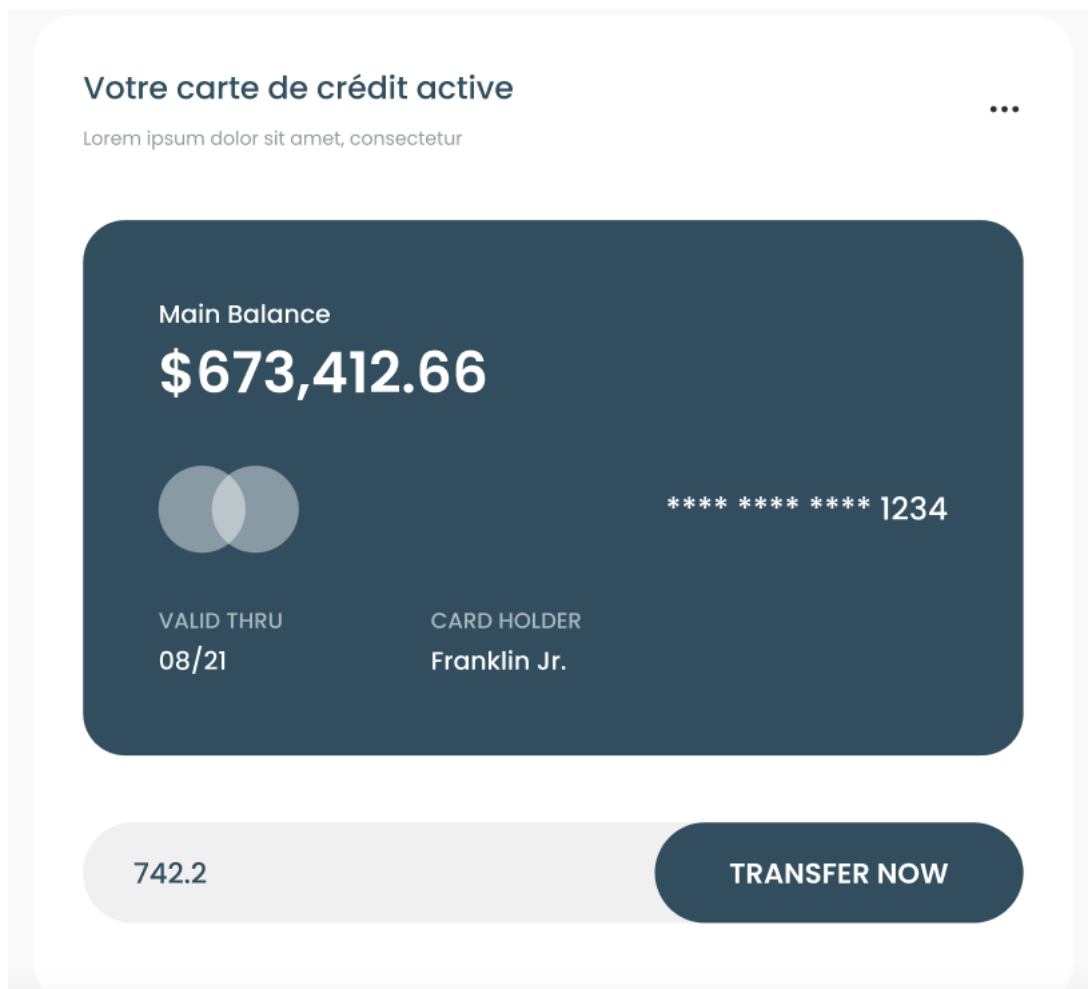

When the customer submits an intervention request, the site administrator receives a request on his interface and a notification to decide whether or not to accept the intervention request.

If not, the request is rejected.

If he accepts, an offer (a quote) is submitted to the customer, who may or may not refuse the offer. If he accepts, he is redirected to the payment page to proceed with payment of the amount indicated by the Reeach company.

Voir plus			

this screen is just for displaying a virtual card with the latest card numbers registered by the customer. The customer can then check whether the registered card is the one he wishes to use.

this page called "analysis" is the page on which the scrapping of data from google is displayed and which therefore shows whether the links have a positive, negative or neutral effect on the user, thanks to the color-coded tiles.

the user can drag and drop the tiles to sort them as desired

The screenshot shows a web application interface for 'react'. The top navigation bar includes the 'react' logo, a search bar, and user information (Medan, IDN, Hello, Franklin Super Admin). The sidebar on the left contains a list of navigation items: Dashboard, Analyses, Demandes d'intervention, Alertes, Factures, and Messagerie. The 'Analyses' item is highlighted with a purple box. The main content area is titled 'Analyse' and displays a table of analysis results. The table has columns for status (color-coded), title, date, and source. The data rows show various support client exceptions with dates from June 1, 2020, and sources from Lefigaro.com. A pagination bar at the bottom indicates 4 items.

Status	Titre	Date	Source
Positive	Support client exceptionnel chez Reeat	June 1, 2020, 08:22 AM	Lefigaro.com
Negative	Support client exceptionnel chez Reeat	June 1, 2020, 08:22 AM	Lefigaro.com
Negative	Support client exceptionnel chez Reeat	June 1, 2020, 08:22 AM	Lefigaro.com
Positive	Support client exceptionnel chez Reeat	June 1, 2020, 08:22 AM	Lefigaro.com
Positive	Support client exceptionnel chez Reeat	June 1, 2020, 08:22 AM	Lefigaro.com
Negative	Support client exceptionnel chez Reeat	June 1, 2020, 08:22 AM	Lefigaro.com
Negative	Support client exceptionnel chez Reeat	June 1, 2020, 08:22 AM	Lefigaro.com
Positive	Support client exceptionnel chez Reeat	June 1, 2020, 08:22 AM	Lefigaro.com
Positive	Support client exceptionnel chez Reeat	June 1, 2020, 08:22 AM	Lefigaro.com
Negative	Support client exceptionnel chez Reeat	June 1, 2020, 08:22 AM	Lefigaro.com

they can also click on the link to access the web page that mentions them.

on this screen, it displays the number of results returned, which must be 50 (as we're only scrapping the first 50 links), and therefore displays the overall statistics of positive, neutral and negative links, as seen above;

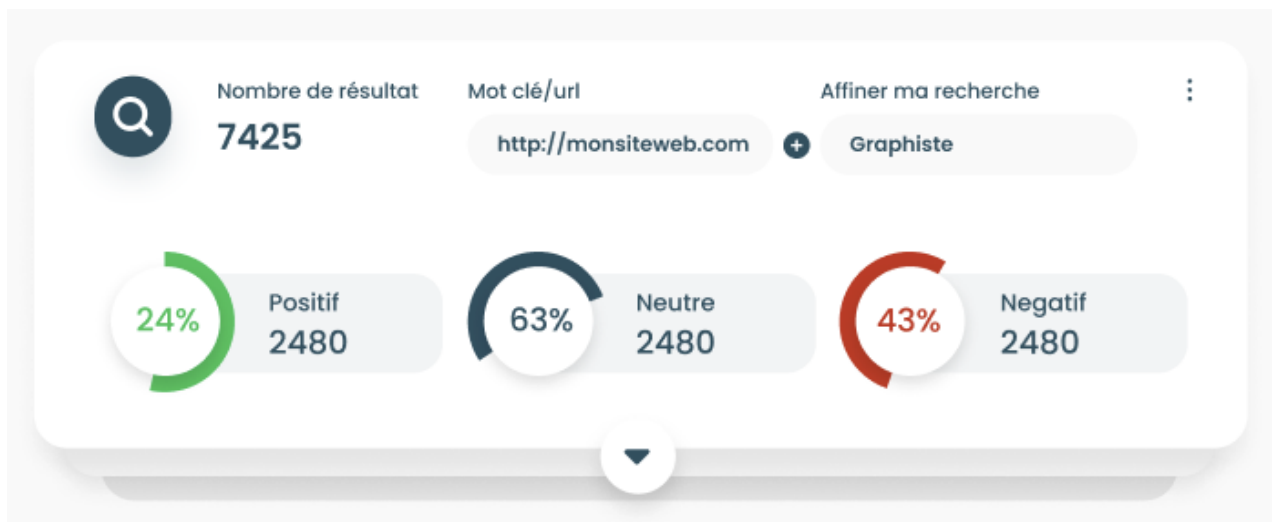

as well as the keyword the user has decided to use.

Please note that each new keyword is an additional package that the user must pay for.

If he chooses, as in the screen, www.monsiteweb.com the search is carried out via this keyword, if he wishes to add a search on, for example: John Smith, then he will have to pay for an additional keyword.

The customer must be able to take action in the event of a result that doesn't correspond to him, for example a homonym. Let's imagine that the customer's name is Brad Pite, if the results that come up are for Brad Pitt, he must be able to click on a request to support in order to change his keyword or optimize his search.

the "refine my search" button is free, and can be used to limit homonyms: for example, if Brade Pite is a graphic designer, he can refine the search so that the software only scrapes the data for this person, who is a graphic designer, and not for Brad Pitt, who is an actor.

here you'll find the service request screen we mentioned earlier in the document. It allows the user to send a request and justify it with a text.

The screenshot displays a web application interface with a sidebar menu on the left containing items like Dashboard, Analyses, Demandes, Alertes, Factures, and Messages. The main content area is partially obscured by a white 'Confirmation' modal. The modal has a title bar with a close button (X) and a body containing a paragraph of Lorem Ipsum text. Below this, there is a section titled 'Informations supplémentaires (optionnel)' with a text input field labeled 'Entrez votre réponse'. Underneath the input field are three checked checkboxes with the following text: 'Je certifie ne pas être en procédure contre ce site', 'Je reconnais que la demande d'intervention nécessite un devis', and 'J'accepte les conditions générales et je demande un devis pour la demande d'intervention'. At the bottom right of the modal is a dark button labeled 'Envoyer ma demande'. The background of the application shows a list of items, including one titled 'Expérience décevante avec React' and another 'Support client exceptionnel chez React', each with a date and a source link.

Support client exceptionnel chez React

June 1, 2020, 08:22 AM

Lefigaro.com

here's the quote screen, the admin has indicated the price for the service based on the complexity of the file to be processed.

The customer can then decide whether to refuse or accept the quote,
In the case of validation, the customer chooses the payment method already registered and proceeds with payment to validate the request for intervention.

This page lists the requests for intervention and their status.

once the request has been validated, the customer can click on "voir le devis" to view the quote, which can be seen on the following screens

The screenshot displays the 'Demandes d'interventions' (Intervention Requests) page in the reeact dashboard. The page features a sidebar with navigation options: Dashboard, Analyses, Demandes d'intervention (selected), Alertes, Factures, and Messagerie. The main content area shows a table of requests with columns for status, date, and company. The status of the requests is as follows:

Status	Date	Company
En attente d'examen	June 1, 2020	Lefigara.com
Demande approuvée	June 1, 2020	Lefigara.com
Demande approuvée	June 1, 2020	Lefigara.com
Demande rejetée	June 1, 2020	Lefigara.com
Demande approuvée	June 1, 2020	Lefigara.com
En attente d'examen	June 1, 2020	Lefigara.com
En attente d'examen	June 1, 2020	Lefigara.com
Demande rejetée	June 1, 2020	Lefigara.com

An orange arrow points from the text 'voir le devis' in the second row to the 'Voir le devis' button in the third row.

the alert page takes up what has been said above, a cron job is run every first of the month to bring up the first 50 links, if there is new data or new links then the customer receives a notification and they appear on this page. He also receives a notification that appears on the bell icon on the dashboard.

Alertes

Paramètre des alertes

1

4

<

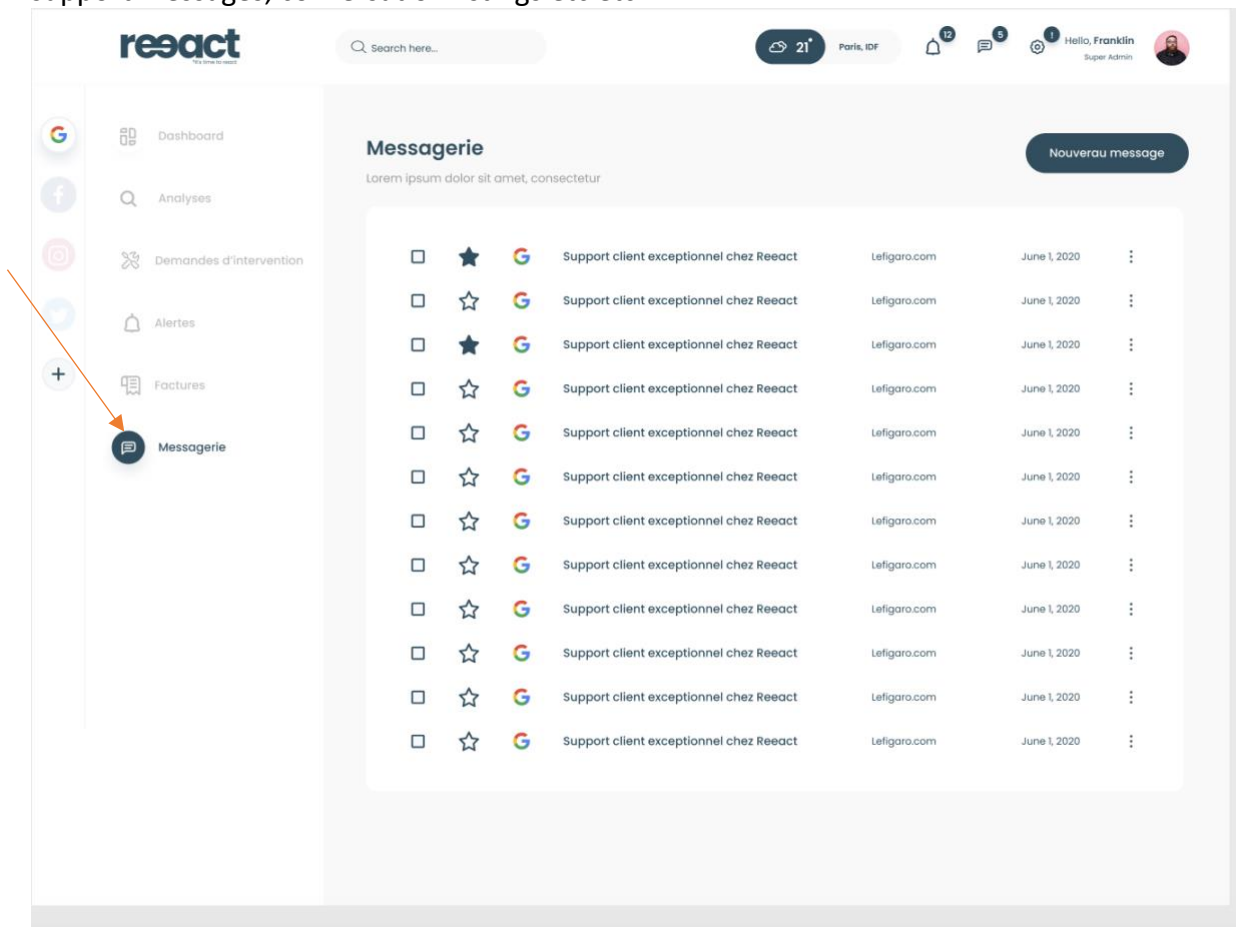

here we have the alert parameter screen so that customers can choose the frequency and type of alerts they wish to be notified of

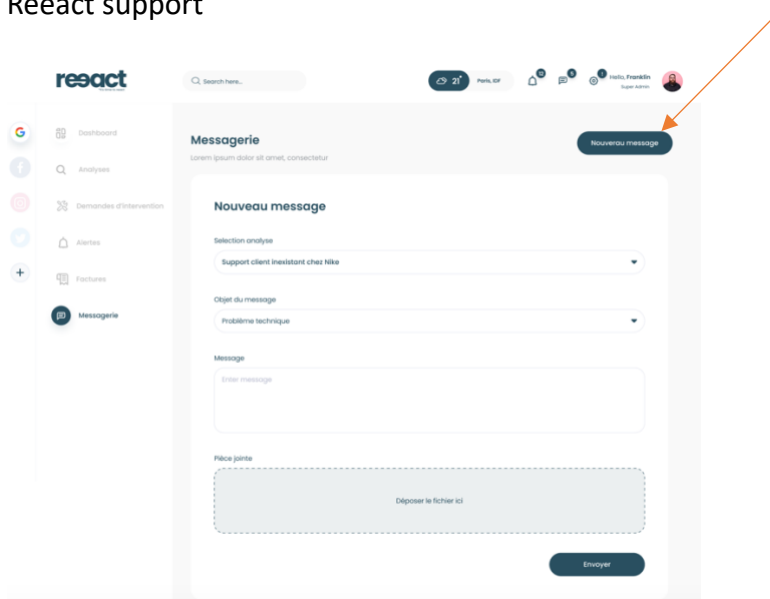

this page is for viewing invoices when the customer clicks on "voir détail".
the customer can download the invoice as a pdf file using this button

this page is the messaging page which contains messages received from the site admin, support messages, conversation listings etc etc ...

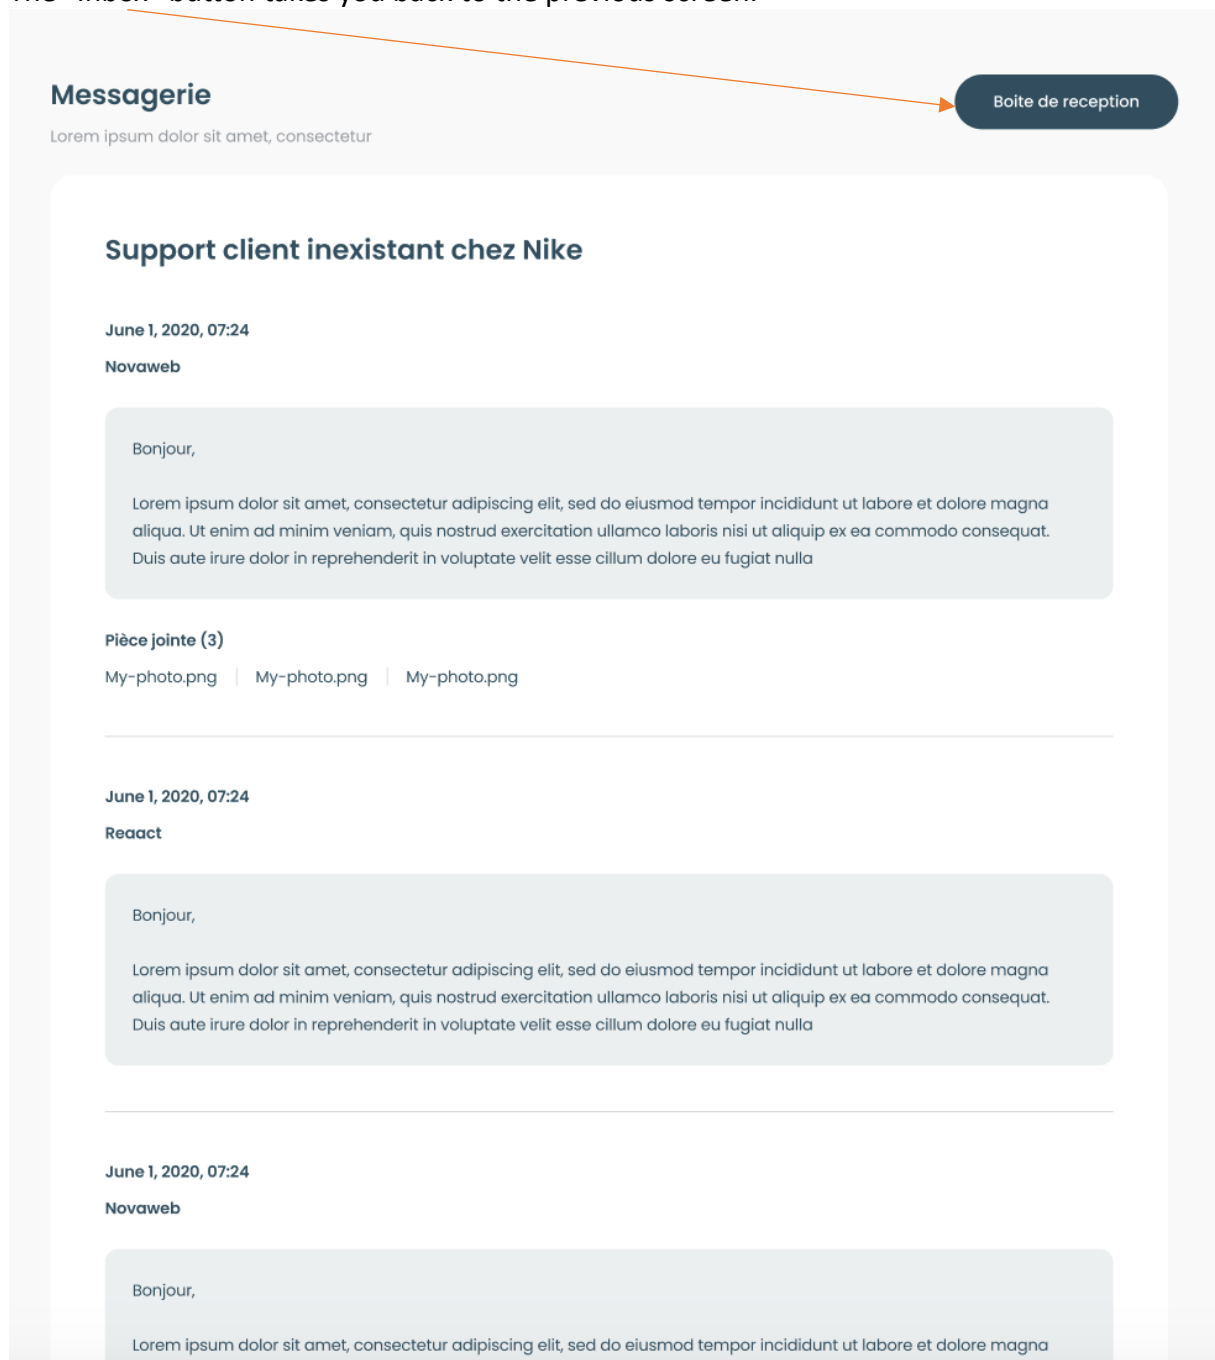

by clicking on the "new message" button, the customer can submit a message and send it to Reeat support

when he clicks on one of the conversations, he has access to the message history of the support about this conversation.

The "Inbox" button takes you back to the previous screen.

on this screen, the customer accesses the parameters of his customer account in order to make modifications if he so wishes.

the page is accessible via these buttons:

BACK OFFICE: ADMIN SCREEN

We're now in the back office, with the site administrator's screens.

Here the admin has a global view of the :

- Number of customer accounts present on the tool (total number of customer accounts registered on the site)
- Number of active accounts (using the tool and paying the subscription)
- Number of intervention requests received
- Number of invoices sent to customers

[illegible]

this tile displays the list of all customers, with their details:

- last name / first name
- company name if it's a business
- email address
- city
- and subscription type

the admin can decide to add a customer account manually if he wishes via this button

[illegible]

the admin account request button opens this page so that the admin can fill in the fields and validate the creation of the account

here you'll find requests for service sent in by customers.

The screenshot displays the Reeact dashboard. The sidebar on the left contains the following menu items: Comptes clients, Demandes d'intervention/devis (highlighted with an orange arrow), Factures, Paramètres, Code Promos, and Statistiques. The top header features a search bar, weather information (21°C, Paris, IDF), and a user profile (Hello, Franklin Super Admin). The main content area is titled 'Demande d'interventions' and includes a table of service requests. The table has columns for client name, company logo, request description, date, company name, and status. The status column shows various states like 'En attente d'examen', 'Demande envoyée', and 'Devis accepté'. Below the table are four pagination buttons (1, 2, 3, 4). At the bottom of the dashboard, there are three summary cards: '582 Total Factures' (highlighted with an orange arrow), '346 Factures Payées', and '582 Total Factures Envoyées' (highlighted with an orange arrow).

Client	Logo	Description	Date	Company	Status
Nicolas Brissaud	G	Support client exceptionnel chez Reeact	June 1, 2020	Lefigara.com	En attente d'examen
Nicolas Brissaud	G	Support client exceptionnel chez Reeact	June 1, 2020	Lefigara.com	Demande envoyée
Nicolas Brissaud	G	Support client exceptionnel chez Reeact	June 1, 2020	Lefigara.com	Devis accepté

Nicolas Brissaud	G	Support client exceptionnel chez Reeact	June 1, 2020	Lefigara.com	Devis accepté
Nicolas Brissaud	G	Support client exceptionnel chez Reeact	June 1, 2020	Lefigara.com	Devis accepté
Nicolas Brissaud	G	Support client exceptionnel chez Reeact	June 1, 2020	Lefigara.com	Devis accepté

582
Total Factures

346
Factures Payées

582
Total Factures Envoyées

with the number of total invoices, the number of paid invoices, and the number of invoices sent

- 1) send a quote
- 2) request further information about the service request
- 3) refuse the request

when the admin sends a quote, the quote is pre-filled, the only data that changes is the price of the service.

The screenshot shows a web application interface with a sidebar on the left containing menu items: Comptes clients, Demandes d'intervention, Factures, Paramètres, Code Promos, and Statistiques. The main content area displays a modal titled 'Devis demande d'intervention' with a close button (X) in the top right corner. Inside the modal, there is a large text area containing placeholder text (Lorem ipsum) and a form field labeled 'Proposer un devis d'un montant de' with a placeholder 'Entrer votre prix'. An orange arrow points from the top right of the text area to the price input field. Below the input field is a 'Confirmer' button. The background shows a dashboard with statistics: 582 Total Factures, 346 Factures Payées, and 582 Total Factures Envoyées. The top navigation bar includes the 'reæact' logo, a search bar, weather information (Paris, IDF), and user profile information (Hello, Franklin Super Admin).

this screen represents the request for additional information on which the admin can write his request in order to send it to the customer concerned.

this tab allows the administrator to manage and create promo codes.

he can decide to create one via this button:

The screenshot shows a web application interface. At the top, there is a search bar with the placeholder text "Search here...". To the right of the search bar, there is a weather widget showing "21°" and "Paris, IDF". Further right, there are notification icons for 12 and 5 items, a settings gear icon, and a user profile section with the text "Hello, Franklin" and "Super Admin" next to a circular profile picture.

Below the header, the main content area is titled "Codes Promos" with a subtitle "Lorem ipsum dolor sit amet, consectetur". To the right of this title, there is a button labeled "Créer un code promo". An orange arrow points from the text "he can decide to create one via this button:" to this button.

Below the title and button, there is a table with the following columns: Titre, Début, Fin, Méthode, Montant, and Statut. The table contains five rows of promo codes.

Titre	Début	Fin	Méthode	Montant	Statut
NICO10	June 1, 2020, 08:22 AM	June 1, 2020, 08:22 AM	Pourcentage	10%	En cours
GILLES10	June 1, 2020, 08:22 AM	June 1, 2020, 08:22 AM	Pourcentage	10%	Expiré
SUMMER20	June 1, 2020, 08:22 AM	June 1, 2020, 08:22 AM	Montant	20€	En cours
DISCOUNT	June 1, 2020, 08:22 AM	June 1, 2020, 08:22 AM	Pourcentage	10%	En cours
GILLES10	June 1, 2020, 08:22 AM	June 1, 2020, 08:22 AM	Montant	20€	Expiré

he then chooses :

- the name of the promotional code (example: REEACTWLCM20)
- whether the discount is a percentage or a fixed amount
- the code's validity date

on this screen :
this is the admin dashboard.

It can therefore show information on :

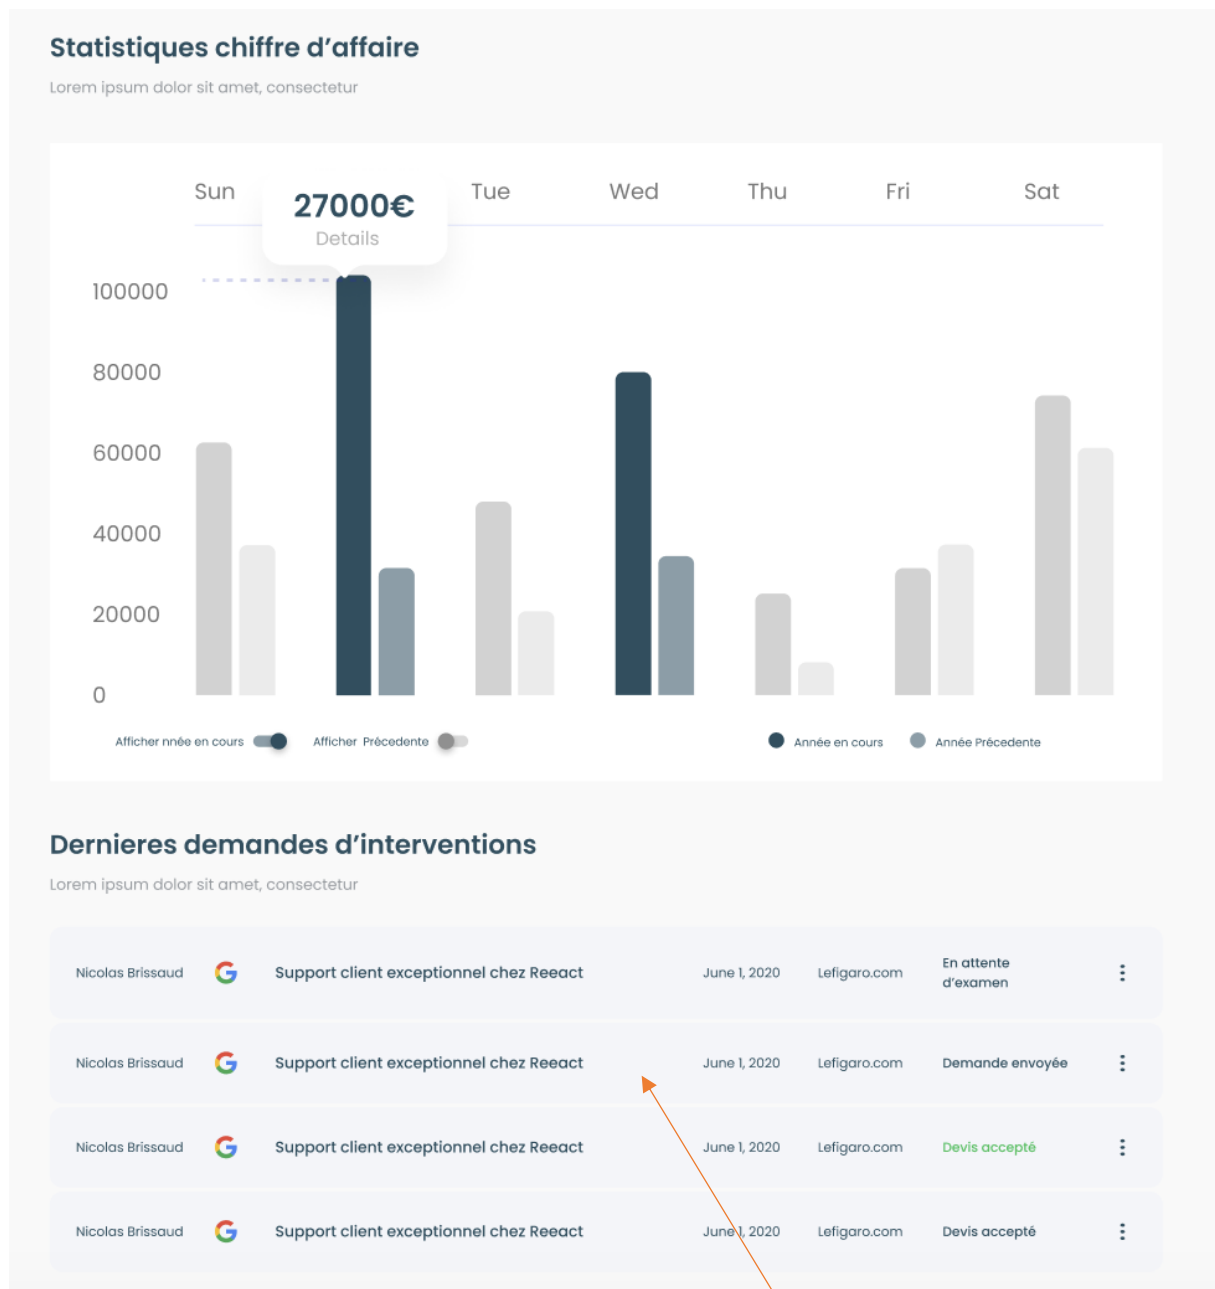

- total number of customer accounts
- number of active accounts current month
- number of active accounts month -1

I need more information from the customer for this chart:

this pie chart represents an overview of active accounts and the number of unsubscribes

this table represents sales generated per month and/or per year

and here you'll find the latest intervention requests for the current week.
